

The School Board voted to give 70% of the money to the teachers. Later the Board voted to give the CEO a \$30,000 raise after the superintendent promised that nobody would be getting a raise unless all groups had a contract. Next came furlough days for all 9-month support staff. When is this going to stop? ESEA needs someone with a backbone that will stand up to ALL that is not right. ESEA needs a leader who will fight for our support staff professionals. I AM this person! I respectfully request your vote. My name is Terri Shuman and I WANT to be your next ESEA President.
