

VICTORY!

STAFF PRESSURE MOVES CCSD TO REVERSE UNSAFE DIRECTIVES

After weeks of relentless fighting, our union members from the Education Support Employees Association (ESEA) and Teamsters Local 14 have successfully pushed the Clark County School District and the principal of Western High School to rescind their unsafe directive that sent custodial workers to work on private property—a decision that jeopardized staff safety.

This win goes beyond our custodial team to all union members at CCSD. Let's be clear: This reversal was not just handed to us; it was won through the persistent, and collective efforts of our dedicated ESEA and Teamsters Local 14 members.

This victory is a testament to the power of collective action. When we stand together and push for change, we can protect our rights and win real change. Thank you to everyone who stood united in demanding the respect and safety we all deserve.
